An added 1/8 to 1/2 yard is added to all yardages to account for shrinkage, straightening, cutting errors and prints that may require special cutting to get the best results.

You should protect your investment in time and fabric by making sample blocks before cutting into your fabric because Exclusively Quilters will take no responsibility for replacing fabrics.

Shops who wish to kit this design are responsible for figuring yardage for their kits if they wish to reduce yardages.

Cut five 2" x 44" strips for border

From the **brown** fabric:

Cut seven 2-1/2" x 44" strips for binding

Cut five 2" x 44" strips for inner border

Cut six 1-1/2" strips for outer border

From the **teal** fabric:

Cut one 12-1/2" x 44" strip and recut into one 12-1/2" x 12-1/2" square

Basic Block Directions:

1. Each block has a page with all the templates and specifics for that block.
2. Each template page has a 2" color version of the block. Measure this square. If it does not measure 2", then use a copy machine to reduce or enlarge the entire page of templates until the square is 2". Listed on these 2" color squares is the block's 12-1/2" background square fabric.
3. Trace all the templates for a block onto template plastic. If half a template is shown, combine two halves (one the mirror image of the original) along the long dashed lines. Cut out each template and label.
4. Lay the templates **FACE DOWN** on paper side of the fusible web. Trace shapes onto the fusible web the number of times indicated on the template. Leave about 1/4" between each tracing. **NOTE:** Some templates will need to be traced **FACE UP** as well and this will be indicated on the templates.
5. Roughly cut out each shape leaving about 1/8" around each tracing.
6. Lay the tracings, web side down, on the **WRONG SIDE** of the fabrics indicated on the templates. Lightly press the tracings onto the fabric.
7. Cut out each of the appliques along the drawn lines.
8. Lay out the applique pieces in the 12-1/2" block indicated on the template page, referring to the quilt diagram and the directions on the template page for the layering of the applique pieces.

9. Permanently press the appliques to the 12-1/2" blocks following web manufacturer's directions.

10. Machine or hand stitch an overcast stitch covering all the raw edges of the applique. If doing by machine, use a narrow zigzag or other overcast stitch. Use a matching all-purpose thread or clear nylon thread through the needle and a neutral all-purpose thread in the bobbin. **NOTE:** Use of a tear-away stabilizer is optional.

Quilt Top Assembly

1. Lay out the blocks in four horizontal rows of three blocks each as shown in quilt layout. Stitch blocks into rows then sew the rows together.
2. Cut one 2" x 44" brown strip into two equal lengths. Sew each half-length strip end-to-end with a full length strip. Add these borders to the right and left sides of the quilt. **Press and trim these and all successive border additions.** Add a 2" x 44" brown strip to top and bottom of quilt.
3. Add a 2" red border in the same manner as the first border.
4. Cut two 1-1/2" x 44" gold strips each into two equal lengths. Sew each half-length strip end-to-end with a full-length strip. Add borders to the right and left sides then to the top and bottom of quilt.
5. Add a 4-3/4" large paisley border in the same manner as the gold border.
6. Cut a 15" length from each of two 1-1/2" x 44" brown strips. Sew each 15" length and the remaining length of each strip (about 29") end-to-end with a full-length strip. Add the longer borders to the right and left sides of the quilt. Add the shorter borders to the top and bottom of quilt.

Quilt Assembly

1. Cut backing into two equal lengths. Sew the two lengths together along selvage edges. Layer the backing, batting and quilt top. Quilt or tie as desired.

2. Prepare binding from seven 2-1/2" x 44" brown strips. Sew strips together into one long binding strip. Press strip in half lengthwise.

3. Carefully trim backing and batting even with quilt top.

4. Leaving an 8" tail of binding, sew binding to top of quilt through all layers matching all raw edges. Miter corners. Stop approximately 12" from where you started. Lay both loose ends of binding flat along quilt edge. Where these two loose ends meet, fold them back on themselves and press to form a crease. Using this crease as your stitching line, sew the two open ends of the binding together right sides together. Trim seam to 1/4" and press open. Finish sewing tape to quilt.

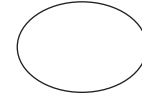

5. Turn binding to back of quilt and blind stitch in place.
